DETAILED ACTION

Election/Restrictions

1. Applicant's election without traverse of claims 1-25 (cancelled) and new claims added to reflect an elected species in Paper No. 09/29/2003 is acknowledged.

Allowable Subject Matter

2. Claims 26-55 are allowed.
3. The following is an examiner's statement of reasons for allowance:

A search of the prior art did not disclose a liquid crystal display device comprising a combination of structural elements, more specifically:

(a) A sheet-like electrode comprising a transparent conductive film arranged at each pixel, a counter voltage line formed on the conductive electrode that includes a multi-layered structure comprising molybdenum layer, an aluminum layer and a second molybdenum layer in this order.

(b) A sheet-like first electrode comprising a transparent conductive film arranged on a substrate, a multi-layered structure comprising molybdenum layer, an aluminum layer and a second molybdenum layer in this order on the first electrode.

The prior art by Ohta et al. (U.S. Patent No. 5,978,059), although discloses a sheet like electrode at a pixel, but does not discloses a counter voltage line having the specified multi layered structure as recited in the instant claims. Nor does it disclose the multi layered structures on the first electrode.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
